

OKIDO

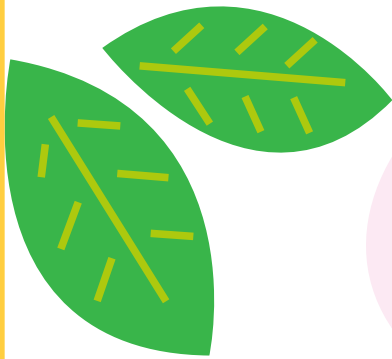

ACTIVITY

LET'S MAKE:

A paper chain
caterpillar

Make a fun caterpillar, then turn it into a butterfly! **Learn** about metamorphosis and the colours of the rainbow.

You will need:

Scissors
Glue stick
Colouring pens
Coloured paper

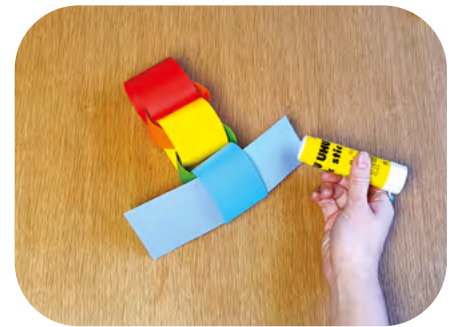

How to:

1 Cut the paper into strips. About 5cm x 21cm. Arrange colours in rainbow order, like this.

2 Start with the red strip. Loop and glue it together. Next loop the orange through the red.

3 Continue looping the strips, following the order of the colours of the rainbow.

4 Once you've looped all the strips together, you will have a paper chain like this!

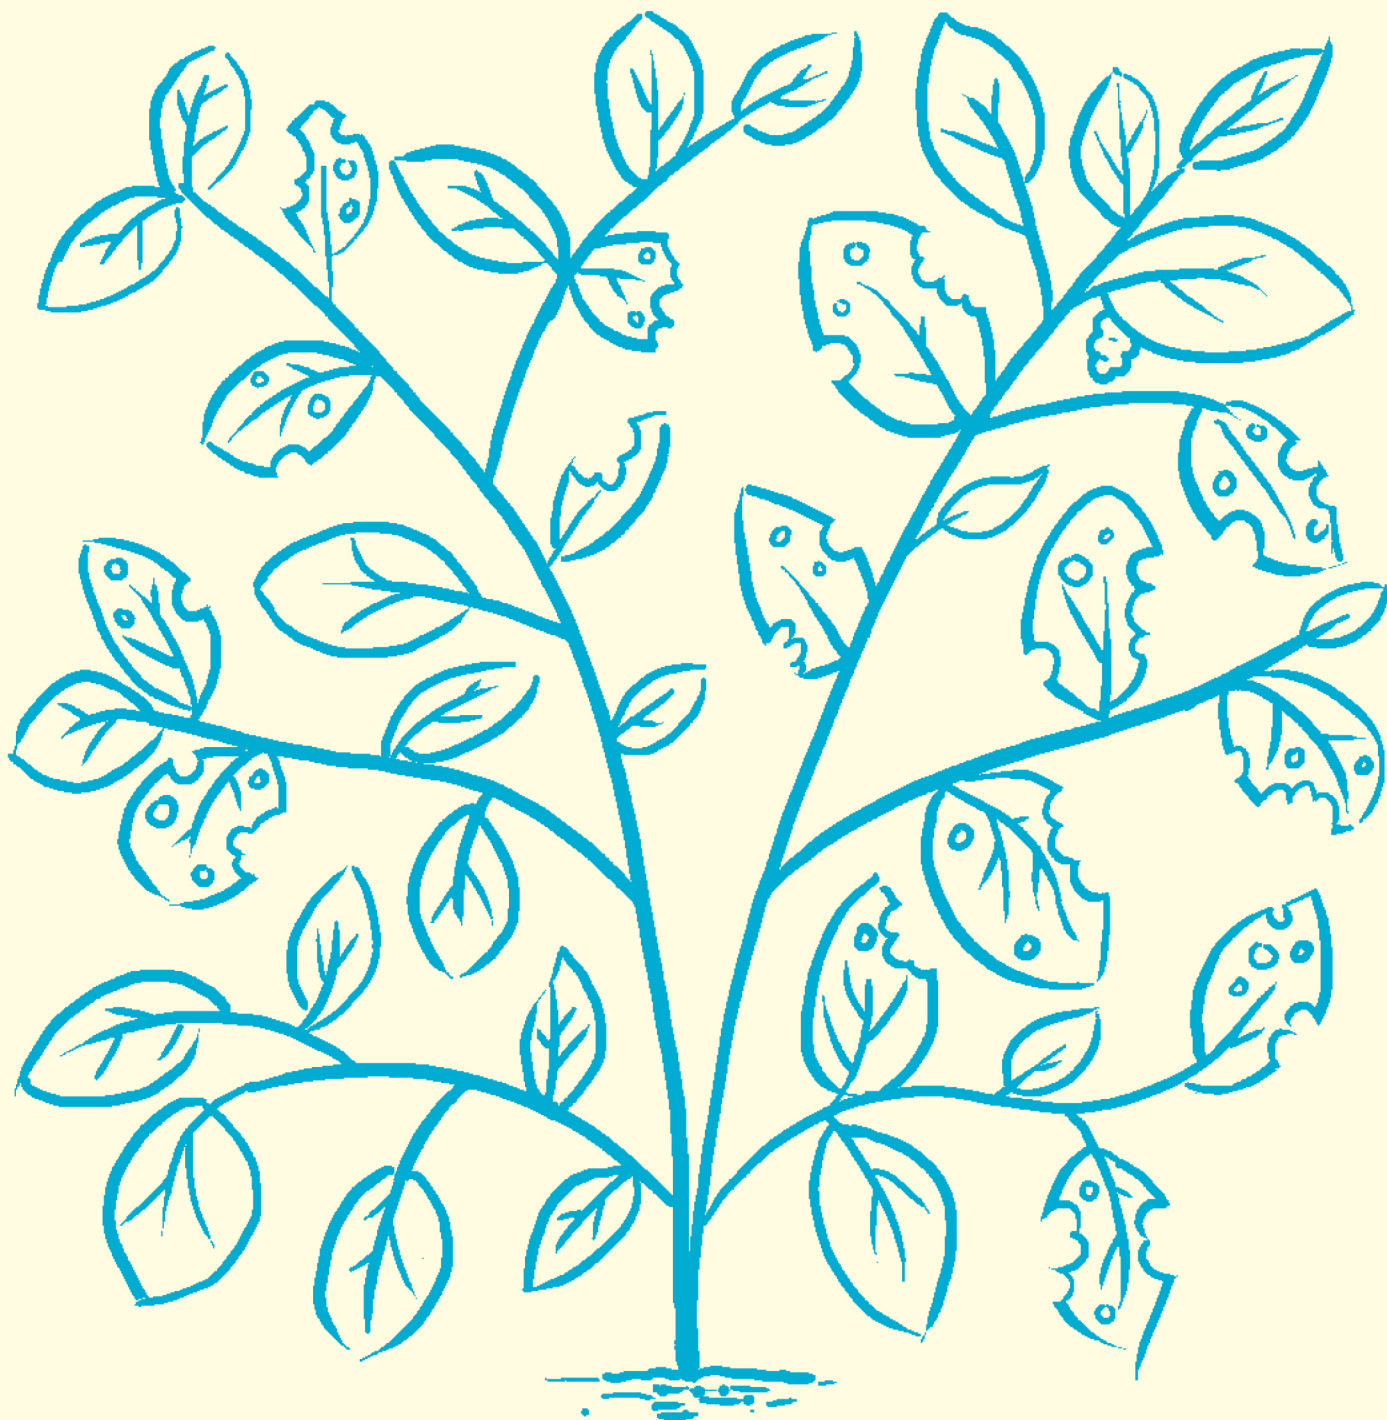

5 Make some wings by folding a piece of paper into a fan. Cut out eyes and antennae.

6 Glue the eyes and antennae onto the caterpillar. Add the wings to make it into a butterfly!

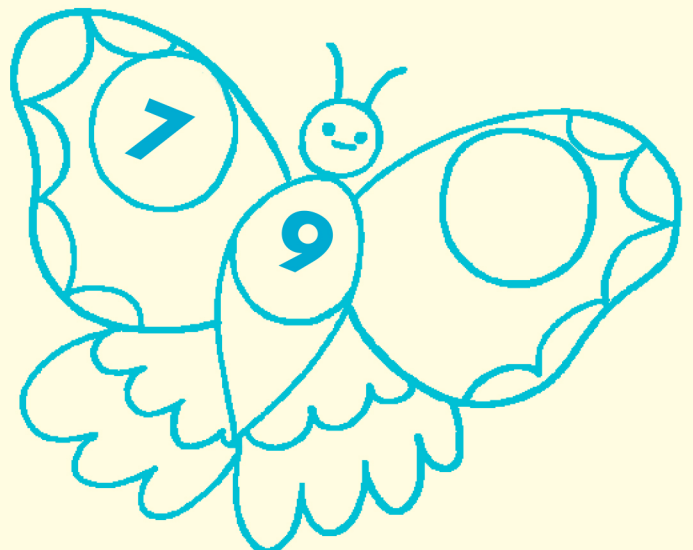

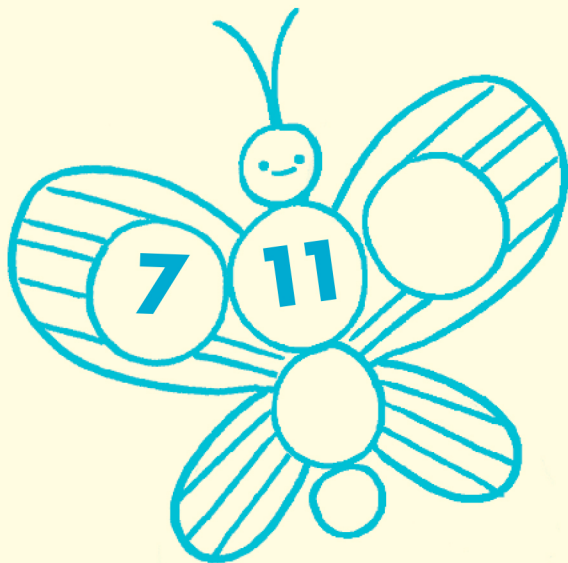

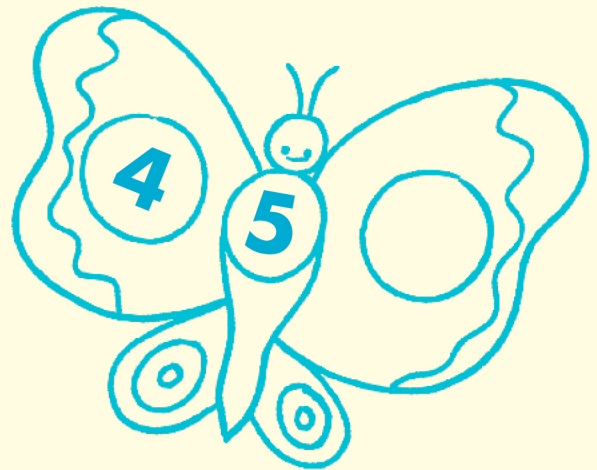

Munch-crunch-counting

How many leaves have been nibbled? Can you spot the hungry caterpillar cocoon?

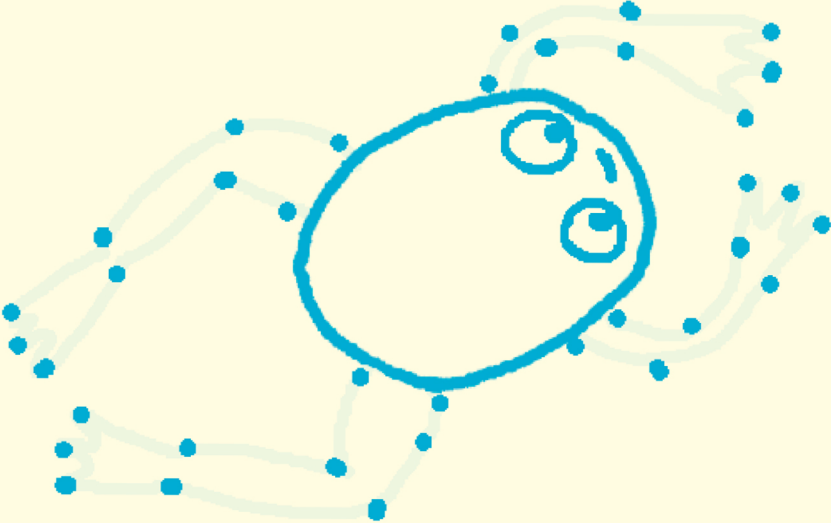

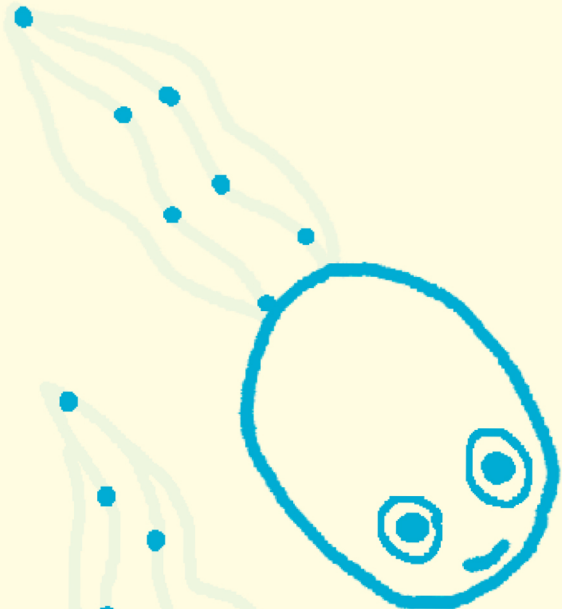

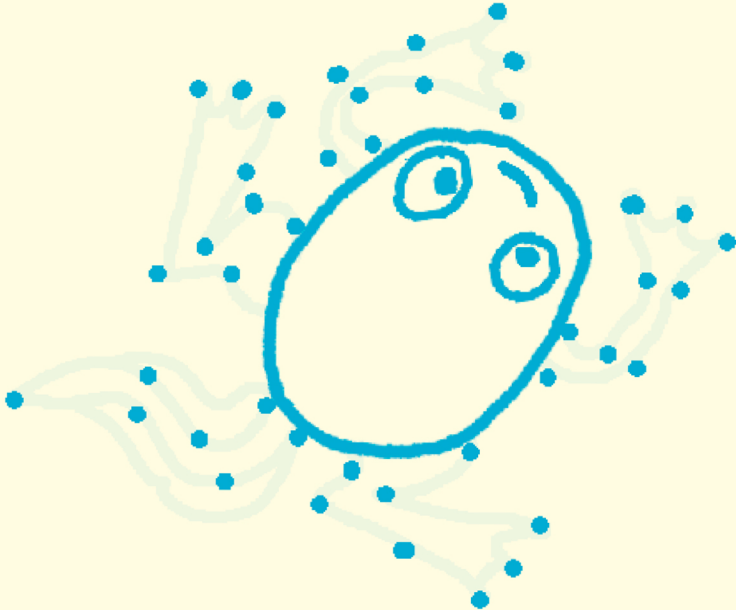

Counting butterflies

The numbers in the wings add up to the number in the middle. Fill in the missing numbers.

Let's Okidoodle!

Join the dots to find the tadpole, froglets and frog!

Trace and write the words

Metamorphosis

tadpole

frog

butterfly

caterpillar
